The screenshot displays the EAST v1.0.0.0 application window. The main pane on the left shows a tree view of document categories: Drafts, Pending, Active, Failed, Saved, Favorites, Tagged (0), UDC, Queue, and Trash. Under the 'Active' category, a list of documents is shown, including L1 through L8. L8 is highlighted. The right pane shows a search results area with a search bar and a list of results, including 'medical adj records and royalty'. The bottom of the window features a table with columns: U, I, Document ID, Issue Date, Pages, Title, Current OR, Current XRef, Retrieval C, and Inventor. The table is currently empty.

The screenshot shows a terminal window with a menu bar at the top containing buttons: Search, DB, Browse, Queue, and Query. Below the menu bar, there is a text input field containing "USPAT" and a "Browse" button to its right. Underneath this is a "Default operator" label followed by a text input field containing "OR". To the right of this is a checked checkbox labeled "Highlight all hit terms in body". The main area of the terminal displays the text "medical adj records and fee and royalty". At the bottom of the window is a taskbar with icons for "SR3 term", "Set bin", "Image", "Find", "HTML", and several other small, less legible icons.

A screenshot of a web browser window. The address bar shows a long string of hexadecimal characters. Below it, there are navigation icons (back, forward, home, etc.) and tabs labeled "HTML". The main content area is mostly blank with some faint, illegible markings. At the very bottom, a status bar displays the word "Ready" on the left and "NUM" on the right.
